## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

The IDS submitted 14 December 2007 have been considered by the Examiner.

### ***Drawings***

The original drawings received on 16 April 2004 are accepted by the Examiner.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3, 5, 6, 8, 9, 11, 12, 15, 16, 18, and 19 are under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2 and 3 are rejected as to being indefinite since the glass composition is recited in terms of both weight and molar percentages. The use of mixed weight percent and mole percent ranges in the claims does not allow for one of ordinary skill in the art to derive the ranges of the other essential and optional components or to understand the scope of the claim as a whole.

Claims 5, 6, 8, 9, 11, 12, 15, 16, 18, and 19 are rejected as indefinite since they depend either directly or indirectly from claims 2 or 3.

### ***Response to Arguments***

Applicant's arguments filed 7 January 2009 have been fully considered but they are not persuasive.

Applicants' argue that the use of mixed weight percent and mole percent ranges in the claims does not make claims 2 and 3 indefinite, since a glass can be recited in terms of molar percentages and weight percentages. While a glass composition can have its components recited in terms of weight percentages or molar percentages, it is not clear when the glass composition has components partially recited in both weight and molar percentages. See U.S. Patent 5153151, column 3, lines 10

***Allowable Subject Matter***

Claims 1, 4, 7, 10, 13, 14, 17, and 20-25 are allowed.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art fail to disclose or suggest an optical glass having the recited composition in the instant claims specifically the  $P_2O_5$ ,  $BaO$ ,  $MgO$ , sum of  $Li_2O+Na_2O+K_2O$ , and  $ZnO$ , where the optical glass does not contain any  $La_2O_3$ .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
